

## A&M - a class company - Joe Summers

60 CENTS  
 Volume 22 No. 12  
 November 9, 1974

The record business became a part of Joe Summers when he was seventeen as a warehouse worker for Capitol Records in Detroit. He went on to work in a local record store, returned to Capitol as an inside salesman and finally hit the road with Decca Records at the age of nineteen. Summers graduated quickly in the business. From salesman to assistant branch manager to branch manager to regional manager and finally to national sales manager for Motown.

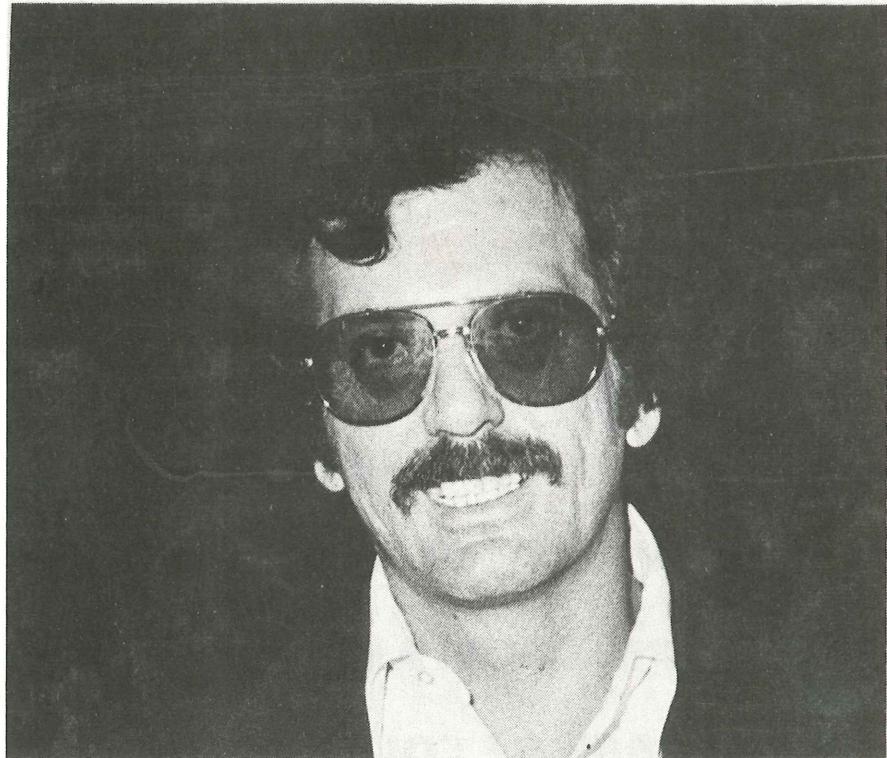

Summers took the job of national sales manager for A&M (Canada) two years ago. He believed that Canada, only a stone's throw away from Detroit (Windsor) was very similar in the marketing of records. He learned very quickly that this was a completely different market. He was asked what he found that was different in Canada:

**SUMMERS:** I think probably the thing that hit me most was the lack of excitement and enthusiasm. It was almost like a sin to get excited about anything.

**RPM:** Did you find they didn't trust you because you were an American?

**SUMMERS:** No . . . I think they thought he's just another American. I remember my first trip to the west and when I got back someone asked me what I thought, I said thank God I've only got two strikes against me — I'm an American and I'm from eastern Canada. If I'd had three strikes they'd probably have shipped me back in a box.

**RPM:** Did it take you long to get accustomed

# WHAT'S WRONG WITH CANADIAN COUNTRY MUSIC?

HOW CAN WE IMPROVE THE IMAGE OF CANADIAN COUNTRY?  
WHO CAN LEAD CANADIAN COUNTRY MUSIC?  
IS THE CANADIAN COUNTRY SCENE AS BIG AS WE BELIEVE?  
HOW INTERESTED IS THE CANADIAN COUNTRY INDUSTRY?  
HOW SUCCESSFUL CAN CANADIAN COUNTRY BE?

These are the issues, and the answers can come from a meaningful dialogue among Canadian country people. RPM will make available the forum and the country industry will (or will not) respond.

For many years, country people have been telling us they want a bigger and better industry. There are many issues. They can't be solved if they aren't discussed and the problems made clear.

On November the 23rd and 24th, RPM will sponsor BIG COUNTRY, a two day meeting of industry events.

Saturday, the 23rd, the day will begin with speakers who are authorities in the country

business. The afternoon session will be a forum to discuss the problems of country music in Canada.

That same evening, RPM will host a cocktail

## A TOUCH OF PERRY FOR VALDY ALBUM

A&M have taken a little more time in the preparation of Valdy's new album and have completely remixed all the cuts. Two cuts were remixed at Andre Perry's new Le Studio, located forty miles north of Montreal in the Laurentians. Perry's engineer Nick Blagona remixed Valdy's "Renaissance"

## A&M LAUNCHES CAMPAIGN FOR "HARD PART" MOVIE

A&M, now deeply involved in Canadian country, have launched a national campaign to run in conjunction with the cross Canada showing of the new Canadian film, "The Hard Part Begins". The film was produced by John Clifford Hunter and Derrett G. Lee and is an Odyssey Films Production, given an assist by the Canadian Film Development Corp.

A&M is interested in the music side of the flick, having just released the soundtrack which was scored by Three Hats Productions, and in particular Ian Guenther and Willi Morrison. Culled from the soundtrack and released as singles are "The Hard Part Begins (Every Mile)", sung by Louise Rockwood with the flip the same song performed by Rockwood and Zeke Sheppard; and Cliff Carroll's "The Way Of Life" and "Prospecting For Jesus".

On the soundtrack, Zeke Sheppard sings King and introduces Rockwood as Jenny Frame and Carroll portrays himself. Musicians on the soundtrack include: Johnny Bourque, bass; Bob Lucier, steel; George Semkiw, mouth guitar; Ian Guenther, fiddle and acoustic guitar; Roddy Lee, drums; Mel Aucoin, piano and rhythm guitar; Hal Greer, acoustic bass; Fred Mollin, guitar, tambourine and drums; and John Shand, guitar and sax. Backup vocals are supplied by Fred Mollin, Andy Geatrix and Al Stewart.

## A McQUEEN PENNING FOR GINETTE RENO

Ginette Reno returns to the record scene with a Mike McQueen composition, "Light Of Love" on the Parrot label (PAR 2558). Publisher is Burlington Music of Canada.

Reno, a Juno Award winner of past years and nominated last year as Female Vocalist of the Year, is one of the favourites of Canadian pop programmers. She is the first French Canadian recording star to find equal status in English Canada.

The plug side of the Reno single qualifies as 100% Cancon. No production credits or studio information available. Parrot is distributed in Canada by London Records.

and "Hero" tracks.

The Valdy album will contain a "live" portion, which was taped during his Massey Hall (Toronto) concert earlier this year plus a studio session. This will be the first album release from Valdy since he won the Juno Award as Canada's Folk Singer Of The Year (1973). He previously released on the Haida label.

A&M's Pete Beauchamp, Andre Perry, Nick Blagona and Valdy outside Perry's Le Studio Morin Heights.

## MELODIYA INTO CANADA THROUGH CBS AGREEMENT

Walter Yetnikoff, president of CBS Records International and Mezdunarodnaja Kniga, the Soviet Union's foreign trade organization for cultural goods, have completed the signing of an agreement which calls for the release of CBS recordings in the U.S.S.R. and Melodiya recordings in the U.S. and Canada.

The agreement has apparently been under discussion for a couple of years and marks the first time that recordings by a U.S. company will be manufactured and released in Russia. Initial releases will be Igo Stravinsky, conducting the ballet "Persephone", and album product by Miles Davis and Ray Conniff. Scheduled for future release is product by Duke Ellington, Vladimir Horowitz, Frank Sinatra, Blood, Sweat & Tears, Ella Fitzgerald and Zino Francescatti.

Initial Melodiya release for Canada and the U.S. will be Prokofiev's "War and Peace", the complete "Nutcracker" by the Bolshoi Theatre Orchestra, and a Mozart-Haydn concert album by pianist Emil Gilels. Commencing November 1st, Columbia Records of Canada, will make these recordings available to its customers on an ongoing basis.

In commenting on the pact, Goddard Lieberson, president CBS Records Group, noted: "We have always known that music is an international language in itself, and it is with great pleasure that we help make the music of the Russian and American people more accessible to one another."

## CONDOR & MARATHON ARTISTS RECEIVING GOOD EXPOSURE

The Ray Francis single, "If Ginny Knew" on the Condor label has picked up playlists and charts from Victoria through to Stephenville, Newfoundland. Much of the action has been due the promotion afforded Francis and his single by Marathon, distributors of the Condor label.

The Marathon people are now making good gains with their Charlie MacKinnon single, "The Ballad Of Johnny Canuck", penned by part-time country writer and full-time lawyer, Bill Atwell.

## NASHVILLE AND FILM FOR GAIETY'S BAKER

Carroll Baker, currently making good chart inroads with her Gaiety single, "I'd Go Through It All Again", had been scheduled to appear at the Country Music Association's International show in Nashville (17), through the efforts of Gary Buck. The pretty country talent is also the subject of thirty minute colour television special, which her producer, Don Grashey, is making available to television stations across Canada. The film has already been picked up by Ron Waddell of Shamrock Television in Yorkton, Saskatchewan and by Toronto's CITY-TV. The show is one one inch video tape and is being made available free of charge. Grashey is asking however, that stations make a dub from the master and return as soon as possible because of the demand. Stations are also asked to take care of the freight charges.

Having just completed two weeks at Thunder Bay's Park Mount Hotel where she was backed by The Shades Of Country from Chatham, Ont., several one nighters are in the offing.

## MONTREAL DISCOS HIGH ON O.C. SMITH

The power of Montreal discotheques has been felt with the "incredible" sales picture of O.C. Smith's newest Columbia single, "La La Peace Song". Radio play for the single hasn't been too exciting but as one observer put it "If we had discos in the rest of Canada like we have in Montreal, we'd have more beat music on the air. Discos are so powerful in Quebec province they can force radio play and actually demand that stores stock the product."

Smith is being given stiff competition in the U.S. by the Al Wilson release on the Rocky Road label. Canadian distribution is handled by Quality Records.

The Smith single was produced by Johnny Bristol who co-wrote the "Peace" song with L. Martin.

## QUALITY & BROADLAND HIT COUNTRY TRAIL

Quality Records: publishing arms, Shedia and Qualrec have combined their marketing expertise with country producer/performer Gary Buck's experience in the country business and have come up with Canada's newest country label — BROADLAND. Much planning has gone into the coupling with a hefty initial release and several singles and albums in the can.

Ready for shipping are singles by Darlene Madill, "Knock On My Door", Wayne Rostad with "Burnette Road" and Bob Murphy and Big Buffalo with "Don't Put The Blame On Me". The latter appeared at the recent CMA International showcase in Nashville.

Also on tap is a single from Eddie Low, "You're Everything That Love's Supposed To Be". Low, a Maori (New Zealand) also appeared on the big Nashville CMA International show.

Patty McDonell, a country discovery from Vancouver was flown into Nashville for an album session at Woodland Studios, produced by Rick Sancheck and Quality's A&R manager, Bob Morten. Her first single release will be a Ross Allan composition.

With the exception of Low's session, all other tapings were produced at RCA's Toronto studios by Gary Buck.

# Where is Canadian country music going?????

Someone once said that the greatest progress is the desire to progress. Another indication is the degree of the desire to progress. For years, the Canadian country industry

COMMENT  
walt grealis

has had the desire to progress. Just how great that desire is.....is another question. It doesn't do anything for the industry to simply wish something would happen. You could ask what progressive steps have been taken to create a strong Canadian country music industry in Canada. I wonder if anything really solid has been done to move

*.... the prophets of doom, the messengers of mediocrity, will be overwhelmed by the new generation of competent, creative, confident artisans and by all those of preceding generations who have already demonstrated their freshness of mind, their talent and their capacity for inspired leadership."*

In what is to be a "do or die effort", RPM is holding Big Country to bring together country people and to help bring about the truth of what the problems are, and to allow the country industry to find the answers if there are any.

Four years ago, the country music industry in Canada was given a unique opportunity to find itself. Canadian content on AM radio was regulated to 30% Canadian content. In the past four years there has been little to show for that opportunity, other than a number of artists who have been able to make a living at country music, but little more.

Lacking leadership, togetherness and a unity of purpose, the industry sometimes shows very little life. It has been referred to as a loud, vocal minority of complainers.

Somewhere, progress must enter the picture, or the industry will go on believing that the country industry in Canada is over-glorified, over-rated and "a waste of time".

The nose count will take place on November 22nd and 23rd at Big Country. Just what and who is the country music industry in Canada should emerge during those two days. It could be so small that it isn't worth worrying about, or it is an industry that wants to progress and prosper.

There is no talent in Canadian country that is big enough to cure the problems of country music. There is no Canadian country hit that will bring the Canadian country music industry to the forefront.

ONLY FOR  
AMERICANS

Although the direct authority of the Queen in Canadian affairs lapsed with the establishment of parliamentary government, a considerable degree of personal influence has been sustained through public affection and respect. Today the Queen's official role is limited to participation, in person or through the Governor-General, in such ceremonies as the opening of Parliament, the assent to bills and the granting of honours. Essentially, the Queen now is the symbol of the unity, continuity and traditions of the Commonwealth.

In Canada the title of Her Majesty is: "Elizabeth the Second, by the grace of God of the United Kingdom, Canada and her other realms and territories Queen, Head of the Commonwealth, Defender of the Faith." Elizabeth Alexandra Mary was born April 21, 1926; ascended the throne Feb. 7, 1952; married Nov. 20, 1947, H.R.H. Prince Philip, Duke of Edinburgh, Earl of Merioneth and Baron Greenwich, son of Prince Andrew of Greece and Victoria Alice Mountbatten.

On July 17, 1917, George V proclaimed that the name of the Royal House would be changed from the House of Saxe-Coburg-Gotha to the House of Windsor. On February 8, 1960, Queen Elizabeth announced that her descendants, apart from princes and princesses of the Royal family, are to bear the surname Mountbatten-Windsor.

The order of succession to the throne - in

Canadian country people look to Nashville for inspiration. Little do they realize nor care, about the unity of purpose that caused the progress of Nashville and the Nashville artists. Little are they aware of the problems that face them as a group and seldom do they sit down and roll up their sleeves to find answers.

The Canadian country music scene is nothing but a sad imitation of what is being done in Nashville. The Canadian country industry lacks originality and unity, and suffers from a lack of genuine purpose and progress.

Big Country won't have all the answers, but it will be a unique opportunity to face the problems, and from this could come the answers.

Last year's Big Country was a baby step on the way to building something in Canada. This year's Big Country will be the acid test. We either get together to get it together or we take a closer look at Canadian country music - and the Canadian country music industry - and make up our minds.....one way or another. It should be a historic two days.

## DAMRON SET TO GO WITH NEW SINGLE

Dick Damron is ready to release his new single, "The Cowboy And The Lady", culled from his new album, also ready for release. The Damron session was produced at Toronto's RCA and Manta Studios. Damron has just completed a hefty schedule of appearances throughout the west and took time to tape interviews with some of the better known on-air country radio personalities including Linda Martin, CKKR Rosetown; Art Wallman, CKSW, Swift Current; and Fred King at CKRM Regina. Damron also completed a television special for CFRN-TV in Edmonton for their new "Hit Seekers" series. The series is produced and directed by Fred Vos and hosted by Russell Thornberry. The in studio portion of the show was taped at Channel 3's Edmonton studios with the film crew doing location work at Damron's country home near Bentley, Alberta, in the Birch Bay area on Gull Lake and along the Blindman River in west central Alberta.

which the sons of the sovereign and their descendants have precedence over the daughters, and the daughters and their descendants have precedence over lateral lines - i.e.: Prince Charles, born Nov. 14, 1948; Prince Andrew, born Feb. 19, 1960; Prince Edward, born March 10, 1964; Princess Anne, born Aug. 21, 1950; Princess Margaret, sister to the Queen, born Aug. 21, 1930 (married Antony Armstrong-Jones, May 6, 1960); David Albert Charles, Viscount Linley of Nymans, son of Princess Margaret and the Earl of Snowdon, born Nov. 3, 1961, the Duke of Gloucester, uncle to the Queen, born 1900.

## RCA COUNTRY SHOWING COAST TO COAST GAINS

Barry Haugen, RCA's A&R and promotion manager, reports an encouraging national hearing for Bob Ruzicka's "Sunshine Lady" and "California Lady" by the Mercey Brothers. The latter has crossed-over into the pop and contemporary markets and Larry Mercey is taking advantage of the action to personally tout the single. He flew into Winnipeg for a round of talks with local radio stations.

Tommy Hunter, the big country name from CBC-TV, is looking like an early winner with his single, "Born To Be A Gypsy", which was penned by Roy Payne. The latter has just released his new album which contains his current chart item, "Whisper To Me Tina".

There will no doubt be a little more country leaning from RCA. The label's Canadian vice-president and general manager, Bob Cook, was elected to the Board of Directors of the Country Music Association at the recent DJ Convention in Nashville (16-20). He joins country singer/producer Gary Buck. Both will represent Canada and other countries outside the U.S. for the CMA.

## "THE FORCE" LAUNCHED WITH MAJOR RELEASES

From WEA headquarters in New York comes news of "The Force", the name given to the label's massive new sales and promotion campaign, conceived by Warner Brothers' art director Art Thrasher. The campaign is intended to escalate sales and promotion activities over a twelve-month period. All WEA branch offices have been scheduled to view a film which will highlight the promotion and which features live footage of the label's artists. To identify "Force" members, special T-shirts, wallets and badges have been designed and double-track full colour ads will unveil the campaign to the industry.

The September album releases mark the first which come under the campaign. All albums released during that time will receive special attention for the next few months and labels that fall under this special treatment include Warner Brothers, Reprise, Bearsville, Capricorn and DiscReet.

Warner's releases included Graham Central Station's second album "Release Yourself", Bonnie Raitt's "Streetlight", Ron Woods' "I've Got My Own Album To Do", Dory Previn's first album for the label "Dory Previn", Jay Dee's "Come On Love" and Rex Allen Jr.'s "Another Goodbye Song".

Reprise's albums are John Sebastian's "Tarzana Kid", Randy Newman's "Good Old Boys", Fleetwood Mac's "Heroes Are Hard To Find", and Jimmy Cliff's second album for the label "Music Maker".

Bearsville's releases are represented by Felix Cavaliere (formerly lead vocalist for The Rascals) titled "Felix Cavaliere" and produced by Todd Rundgren.

Following the "Capricorn Month" promotion, Capricorn Records has two strong contenders for the September "Force" release. They are "High Roller" by the James Montgomery Band and "Watch for Fallenrock" the debut album for the Nashville-based pop rock group.

DiscReet Records contributes a new two-album set from Frank Zappa and The Mothers "Zappa/Mothers Roxy & Elsewhere". Tim Buckley's latest is "Look at the Fool" and "Tooth, Fang & Claw" from Ted Nugent's Amboy Dukes completes DiscReet's releases.

All the above albums will receive special attention for the next few months as part of "The Force" campaign now underway.

## MONUMENT'S BILLY SWAN CATCHING NATIONALLY

Billy Swan, Monument recording artist, has captured himself a national chart setting with his recent single release, "I Can Help". Canadian contemporary rock programmers were quick to realize the potential of the single as did country programmers.

Columbia, distributors of the Monument label in Canada, have placed a high priority

(l to r) Terry McGee, Bernie Fiedler, Kris Kristofferson, Rita Coolidge, Billy Swan, Columbia's Charlie Camilleri and John Donable of CHUM-FM, take time out for photo promotion at recent Massey Hall gig.

on the promotion of the Swan single, and while Swan was in Toronto recently with Rita Coolidge and Kris Kristofferson, the label's Ontario promo rep, Terry McGee, took advantage of the visit to talk up the single - with obvious results.

## SGM SHIPS NEW SUN SINGLE

The Vancouver-based SGM Records has shipped the latest single from Sun, "Trying All Alone". The single, written by group member Ken Nelson, was produced by Stan Cayer at his eight track studio in Vancouver.

Up front people in Sun are Sue Shirley, Joe Sparacino and John Shirley. Instrumentation is provided by Nelson, on bass; Scott Wright, lead guitar; and Al Brodie, drums. They have just completed a heavy tour schedule that took them through most of the west.

An album, containing the compositions of all six members and published through Astral Music-BMI, is now being readied for release. There is no information available as to national distribution. Enquiries should be made direct to Cayer at SGM Records in Vancouver.

## EMERSON SALES PROMO FOR FANTASY IN ALTA.

Vancouver-based Emerson Sales, headed up by Emerson Short, will now promote product on the Fantasy label in the Alberta territory. Until now Emerson had provided only distribution and direct mail promotion of Fantasy product in Alberta. Responsible for the handling of the promotion will be Monica Netupsky who will work the Alberta territory out of the Vancouver office. First product to receive the Netupsky push is Michael Denner's "The Great Pretender" album. Other Fantasy product to be promoted includes catalogue items by Kenny Burrel, Bill Evans, Duke Ellington and, of course, Creedence Clearwater Revival. Emerson Sales is now completely responsible for distribution and promotion of Fantasy in all of British Columbia and Alberta.

## WALDO DE LOS RIOS TO WARNER BROS. LABEL

Waldo de los Rios, one of the few pop/classical composer/conductors in the business, has been signed to the Warner Bros. label. Initial single release will be "Nabucco" (Fly My Thoughts - Chorus of The Slaves) from his "Operas" album. The single has already sold in excess of 350,000 copies in France alone, where it now holds down the No. 1 position on Europe 1, the number one radio station in Paris. The album has sold more than 120,000 copies in France as well. WEA Canada will be releasing back catalogue product over the next few weeks.

An Argentinian with a solid family music base (his father was a musician and his mother, Marta de los Rios, was one of the country's most noted folk singers) Rios studied music with some of the big names in classical and pop music. He was twenty-eight before he made his first big move which was to Spain. It was here where he signed with Hispavox and began writing and recording movie scores. He scored the soundtracks for "Escala En Hi Fi", "Whisky Y Wodka" and "Pampa Salvaje". The latter earned him the Award of "Best Music Written For A Movie" by the Association of Movie Reporters of Argentina.

## CIRRUS AND CHAPPELL PACT MUSIC PRINT DEAL

Cirrus Music, publishing arm of the Toronto-based Nimbus 9 Productions, has signed a three year music print deal with Chappell & Co. The deal covers both Canada and the U.S.

The big plum for Chappell is the powerhouse material of the Guess Who contained in the Cirrus catalogue including their current runaway charter, "Clap For The Wolfman". Other copyrights include "Star Baby", "Glamour Boy", "Orly", "Share The Land", "Follow Your Daughter Home" and many others.

The above signing was firmed by Gerry Lyon of Nimbus 9 and Norman Weiser of Chappell.

## LONDON CLASSICAL ACTS BIG IN VANCOUVER

November 12th, the Beaux Arts Trio will be presented in the city by the Friends of Early Music, November 13th, two of London's biggest names, Joan Sutherland and Richard Bonynge appear at the Queen Elizabeth, again presented by David Y.H. Lui.

Frank Dans, newly appointed head of London's classical division in Montreal, will come to Vancouver for the Sutherland-Bonynge concert.

## Elton's Lucy

Vancouver:

Attempting to pin down the extent of success of Elton John's current North American tour is a futile exercise in jaded hyperbole. All of the traditional licks that

**NUMBER ONE  
WITH A BULLET**  
ritchie yorke

rock writers so frequently use to describe a SRO situation - fantastic outasight incredible far out red hot ridiculous monstrous unbelievable sensational dynamite tremendous - have been battered to impotency in the acres of print excess of recent times, to the point where none of them is really effective when applied to the 1974 Elton John Tour, which might correctly be termed the most successful North American tour ever by a British artist. The impact quite literally has been devastating. It is above and beyond the conventional cliche. It must be viewed from a perspective of its own.

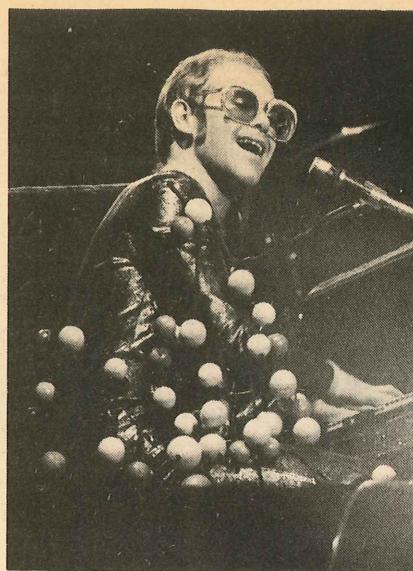

As much as one must distrust those trite little labels that become attached to certain acts, Elton's prominence in the late '74 rock scene is so pervasive that it's difficult to avoid comparisons with the Beatles. Certainly no act since the Beatles has been able to whip up such box office and performance fervor. Attendance records are being smashed regularly and every gig thus far has sold out within hours. All over America, nobody is hotter than Elton John.

Prior to this year, it was generally agreed that Led Zeppelin was the top British act working Stateside. And time may well demonstrate that Zep's decision not to tour here this year was a turning point in their career. While Page and company stayed at home working on a new double album entitled "Physical Graffiti", Elton went on the road to the roar of mass momentum. His popularity, enormous before the tour began, has surged even higher to a level where it is doubtful if even a re-formed Beatles could overtake him. As Ronnie Hawkins observed recently, Elton John IS the New Beatles. Unlike the old Beatles, Elton came up the hard way.

Graphic proof of this rise can be found in attendance figures at almost any major stadium in North America. In Toronto, for example, Maple Leaf Gardens' Attractions Manager, Peter Larsen, reports that in his last appearance there, in early October 1972, Elton drew some 13,000 people. Two years later, 19,000 tickets - the capacity of the Gardens - were snapped up in less than two hours by fans who'd stood in line all night. That's the equal of the drawing power of any musical act ever to have performed at the Gardens. Larsen, who's now urging Elton to play a second concert, says that the man could have sold out four shows with no trouble. "In Toronto", claims Larsen, "Elton John is as big as anything in contemporary music. He's the King".

We're going to be hearing much more of this Elton John v. the Beatles stuff. Which adds more irony to the fire of Elton's recent involvement with John Lennon. Elton's contributions to John's new single, "What Ever Gets You Through The Night", were a considerable boost and it's shaping

up to be Lennon's biggest hit since the demise of the B's. In return, John trooped off to Caribou Studios in Colorado to add composer's authenticity and background vocals to Elton's forthcoming single, "Lucy In The Sky With Diamonds". The flip side

Elton John

of the single, to be released in a month or less, is Elton's rendition of Lennon's "One Day At A Time" from the "Mind Games" album. You can't avoid the fact that this marks the first time that Elton has recorded tunes not written by Bernie Taupin and himself (with the exception of "Honky Tonk Women" on the "Live" album). Maybe it's that old musical mutual admiration malady.

### BACKSTAGE AT ELTON'S GIG

Here we are backstage at Vancouver's Pacific Coliseum, presently occupied by some 17,500 Elton John freaks patiently listening to Kiki Dee and her band. Things have settled down again after the disturbance caused by the unexpected arrival in the heart of the stadium of seven silver

#### A GUIDELINE TO HOW THE RPM 100 IS COMPILED

The RPM 100 is a national chart compiled weekly from national sales and radio station airplay and chart action. The top 50 records are computed from sales and airplay.

The computation of the records from 51 to 100 is based on early airplay, chart action and regional sales and breakouts.

The chart is based on samplings from markets across Canada and indicates trends that may not be prevalent in all areas of Canada.

Shaded numbers indicate a strong upward trend and gains in airplay or sales. This chart is offered as a guide to new product and an indication of trends in Canadian markets.

The RPM 100 singles and album chart (or any part thereof) may be reproduced with a proper credit.

**BRUCE COCKBURN****Salt, Sun And Time****True North TN 16-H**

Unfortunately Canada lacks a star system, but we would like to nominate as one of its shining stars and one who almost demands international recognition - Bruce Cockburn. The Cockburn talent is incom-

parable and here, producers Bruce Anthony and Eugene Martynec have captured Cockburn's lyric, music and vocal magic in the same simple, and seemingly effortless manner in which a Cockburn concert is presented. Although Cockburn is thought of as a folk artist, he gives us samplings of his guitar virtuosity with jazz and abstract pop. Two instrumentals of particular interest are "Rouler Sa Bosse" with Jack Zaza on clarinet, and "Seeds On The Wind", with Eugene Martynec on synthesizer. A package of pure Cockburn - no frills and no detractions.

**POINTER SISTERS****Live At The Opera House****Blue Thumb BTS8002-M**

For those of us who tend to think of the Pointers as a fad, this album comes as something of a shock. "Live at the Opera House" is four sides of solid music, reaching numerous peaks including "Let It Be Me" and "Yes We Can". Programmers should sift through the fifteen tracks with great care, there are delights to be found therein.

**RANDY NEWMAN****Good Old Boys****Reprise MS 2193-P**

Given the kind of lyrics Newman comes up with, by rights he should be a huge cult hero. But he's not and it will take adventurous people indeed to spread the gospel of Randy. "Good Old Boys" is a co-ordinated verbal attack on prejudice and inequality of opportunity which hits its eloquent peak with "Rednecks" . . . "Maddox may be a fool, but he's our fool". So he is, so he is.

**FRANK MILLS****Sonogram LSG72005**

Mills may never be remembered for pushing back the musical frontiers but he is a consistent source of well produced MOR material with professional polish. This album should be a source of delight to programmers

looking for quality instrumentals with a Canadian content factor. For some reason this collection sounds to us almost like a movie soundtrack, a job which Mills could do admirably.

**DORY PREVIN****Warner Bros BS 2811-P**

As in her past albums, Dory makes no attempt at commercialism, preferring instead to concentrate on getting out her own experiences. The result is a strange blend alternately vocalizing companionship and loneliness. There is probably little of interest here to anyone but free formers. Sales will depend almost completely on FM airplay and word of mouth. "Lover, Lover, Be My Cover" and "Atlantis" best exemplify Miss Previn's style and message.

**JOHNNY RODRIGUEZ****Songs About Ladies And Love****Mercury SRM1-1012-Q**

A relatively unknown, Rodriguez possesses a powerful and sincere voice which is put to use here on a well chosen set of compositions ranging from the country flavoured "I Just Can't Get Her Out Of My Mind" to that old standby, "I Can't Stop Loving You". Back-up is consistently strong and tasteful throughout making this a good library item for good music stations and country outlets seeking a healthy touch of sophistication.

**VAN McCOY****Love Is The Answer****Avco AV 69002-M**

A solidly produced instrumental set on which Van McCoy and the Soul City Symphony serve up some good music chestnuts like "Touch Me In The Morning" along with black oriented tunes such as "Back Stabbers" and "You Are The Sunshine Of My Life". A particular delight is the rendition of another chestnut, "Proud Mary". A strong instrumental album which could fit nicely into any softer sound format.

**TIM BUCKLEY****Look At The Fool****DiscReet DS 2201-P**

There are a lot of influences at work here, everything from early sixties protest singer to Booker T and the MG's. The result is confusing to say the least. Out of the chaos come a couple of choice morsels including "Tijuana Moon", with back up a la Isaac Hayes and a soaring vocal boost from Venetta Fields, Clydie King and Sherlie Matthews. In total the album is often dischordant, sometimes aggravating, made palatable only when all the elements unite properly, at which time the result is praiseworthy indeed.

**ORIGINAL SOUNDTRACK****The Hard Part Begins****A&M SP 9016-W**

One of the first quality conscious Canadian soundtracks to come down the pike - and it happens to be country to boot. The flick has already made a hefty impact on the public and the soundtrack should add to the importance of this rare venture. A&M have culled a couple of singles from the set - Cliff Carroll's "The Way Of Life" and "Prospecting For Jesus" and a most impressive duet by Louise Rockwood and Zeke Sheppard on the title song. Unfortunately the Rockwood solo of the title song is being touted as the "A" side - we prefer the flip. It has more balls - and it makes more country sense.

**DISCO ACTION RESTRICTED  
TO LA BELLE PROVINCE**

There has been much talk in recent weeks about the importance of the discotheques in the U.S. but as far as Canada is concerned, Quebec province is the only market that's important for this type of disc play. There are more than one hundred active and successful discos in Montreal and hundreds more situated throughout the entire province. They came into their own about five years ago and it's only recently that it was discovered that Quebec discos really influence the sale of records.

RCA's Ed Preston has found that "there is always larger audiences and better exposure in radio, but disco action is increasing, especially in Quebec where we had great success with 'Rock Your Baby' by George McCrae. He broke heavy through disco action."

A&M's national sales manager, Joe Summers, is exceptionally high on the Quebec market and the disco business in particular. He noted: "We moved more than eight thousand pieces of the last Nino Tempo single in Montreal alone and it was due mostly to the popularity of the single in the discos."

The big bugaboo for successful discos in Ontario is the stringent liquor laws. There are a few active discos in Toronto, one which invested in a five thousand dollar system. Scott Richards, national promotion manager for MCA Canada is of the opinion that the eighteen to thirty-five crowd are looking for good beat records and that discos concentrate on this type of record. Says Richards: "If there were more discos in Toronto we'd sell a lot of records, because people are interested in music and they'll pick it up from the discos. One of the things that discourages club owners from going into canned music is the misunderstanding of the Liquor Board. I think discos can be very important. We used the recent Martha Reeves single as a disco work record and it worked but it would have worked much better if there were more discos."

Larry Green, national promotion manager for WEA, says: "Exposure in Quebec discos is tremendous, especially for danceable music. Any additional input to stimulate sales is of value. I think that discos will especially reach the 18-35 demographics."

Peter Taylor, promotion for United Artists, finds that "Record exposure is very good in discos in Quebec, especially funky sounds. Toronto, and Ontario, in the last two or three years, has shown improvement in exposing records in discos, although it's still not as good as in Quebec."

There's apparently going to be some relaxation on the Ontario Liquor Laws, but how this will effect club owners going into canned music isn't known at this time. If they did become involved in canned music they would have to restrict themselves to this form of entertainment. The Musician's Union frowns on the mix of "live" and canned music.

**GROWING MARKET FOR  
CAPITOL'S STEVENS**

Capitol/EMI Canada recently released a new single by Suzanne Stevens, "House Full Of Women", a Norman Gimbel/Charles Fox composition. The song was originally recorded by Lori Lieberman and is included on her second Capitol album, "Becoming".

Bill Bannon, national promo for Capitol, reports good initial action for the single, particularly in Quebec Province. Pop programmers from coast to coast are showing a definite liking for this bright new talent.

to our customs and method of marketing records and tapes?

**SUMMERS:** I'd say it took me a year to find out where everything was. When I first came here people told me that Canada was different. I really didn't believe it. I didn't accept it. Today I agree, it's different. You have so many different regions and different ways of working each region. The basics are all the same but Canada is very regionalized.

**RPM:** How do you think you can change this situation or bring them together?

**SUMMERS:** I think we have to have people who are more knowledgeable of the business. Just like Gord Edwards said in his recent interview with you, Canada needs more professional people in the record business. In promotion, record people, rack merchandisers, buyers . . . everywhere. I read a line once — "We need record people instead of people in the record business". I think it's getting there but there is such a void compared to what it should be.

**RPM:** Do you push new product more than you do the established artist?

**SUMMERS:** No . . . you try to lay different plans for product that goes to different avenues. Obviously with a hit act you get better distribution. But with a new act you have to create a demand to the consumer than get that mass distribution everywhere.

**RPM:** How come A&M has had so much success with the non-established Canadian artist?

**SUMMERS:** I think our company has record people in it and they do have an excitement about the business. Our people know what they're doing. We have this built in enthusiasm . . . drive and energy.

**RPM:** How do you get the fire lit under your people? Do you give them a pep talk?

**SUMMERS:** Everyone kids me about the number of memos I send out. I just hope they'll pick something out of the memo that they can work on. We don't have to have pep talks . . . just keep them informed of what everyone else is doing. It's a matter of keeping the lines of communication open and letting them know that head office is backing them. I want to know what they're doing and what the industry is doing generally.

**RPM:** Do you work very closely with the promotion department?

**SUMMERS:** Very closely.

**RPM:** Do you think that salesmen should be promotion men as well?

**SUMMERS:** No. I think it's really difficult for a man to do an effective job as a salesman then try to wear too many hats. We regard our salesmen as record merchandisers. To me, a record merchandiser (salesman) should be able to walk into an account and help him sell more product.

**RPM:** By helping the retailer sell more product, you don't mean with discount deals?

**SUMMERS:** We don't have deals. We have programs. It's the total concept of trying to reach the ultimate goal, whether it be to the consumer or to break an act or whatever. Unfortunately some people believe that a promotion is to buy at a cheap price and sell for \$1.99. That's not a promotion. To me it has to be a total concept program.

**RPM:** Your policy on singles is pretty loose isn't it?

**SUMMERS:** We own every single out there until the consumer buys it. They all come back to us, if they're not sold. Every record

we sell is guaranteed. Every record, single or album, sitting in a warehouse because it doesn't sell, eventually ends up back here where it's scrapped.

**RPM:** You mean you don't deal in deletes?

**SUMMERS:** We scrap every record. No deletes at all.

(A&M is one of the few companies that destroys all unsold product. Gerry Lacourtiere, Director of the Canadian operation for A&M, began this policy when he opened in Canada and it has since become a policy with their parent company.)

**RPM:** Do you have your salesmen call on the accounts serviced by rackers?

**SUMMERS:** We're trying to do it more and more. We've just completed a program in the Maritimes just like that. Where our regional marketing man, our salesman, branch manager and our promotion man spent several weeks servicing rack accounts. It was so successful that we have appointed David Brodeur as regional marketing manager. As an example he would go into Saskatchewan and take rack inventory. He does market research and passes his information back to the local sales rep so that he can go into the rack account and point up what he believes would bring him more sales. I think we have to get more involved in that end of it. Sometimes we make money in spite of the jobbers or the accounts. When we can get past that point of . . . maybe it's a lack of communication . . . and, when we can prove that we can all make money, we'll be into a new ball game.

**RPM:** Do you put on a special effort to have product available when an act is playing in a certain area?

**SUMMERS:** Definitely. That's what it's all about. Take the Nazareth tour for instance. I've personally called almost every major rack user in the country and told them . . . 'Look, I need your distribution. I need Nazareth in every location, otherwise what good is our tour and what good is my advertising. Give me that distribution. Let the consumer decide if he wants to buy the record.'

**RPM:** The Nazareth happening is very interesting. A&M broke this group in North America . . . don't you think that has created a very competitive spirit with your people against their American counterparts?

**SUMMERS:** I don't think it's so much a competitive spirit as much as it is the self satisfaction of doing something. I think that's what the business is all about. If you have the product, be it a Nazareth, Keith Hampshire, Gino Vannelli, or you're trying to get Lorence Hud off the ground or whatever . . . there's a certain pride in that 'I did something.'

**RPM:** A&M has now graduated into a company that has something for everyone . . . pop, folk, rock and country. Do you find this poses any problems for your salesmen who might prefer a certain form of music over anything else?

**SUMMERS:** Yes, that's human nature. Again, you have to have that fine degree of being a professional and doing a job with whatever you've been given. Music is very emotional so you have to have your preferences. If everyone likes one thing it's a lot easier to go out and sell it. The challenge comes when you can do a good job on something you're really not tuned into personally.

**RPM:** Do you foresee any major changes in

Trina, formerly of Calgary, now taking up permanent residence in Toronto, have added a new member to the group. Gerry Mosby (19 years) from Castlegar, B.C., will be playing bass for Greg de la Ronde, who will move up front to act as lead singer. Aside from playing bass, Gerry will also be doing vocals.

H.P. Riot, Concept recording artists, have started their first Ontario tour. ## More country for Toronto-CHOO

Torontonians living in the core of the city can now enjoy the sounds of country. CHOO Radio, located in Ajax, fifteen miles east of the city, have changed their pattern (from sunup to sundown) and are now cranking their 10,000 watts into most of Toronto. The pattern, in fact, has introduced them to a potential audience of 3.2 million. They also cover a good portion of the Golden Horseshoe, north to the most northerly tip of Lake Simcoe and east to a point several miles east of Cobourg.

Justin McCarthy, the thirty-seven year old president and owner of Community Communications Corp. (CHOO Radio), has discovered the excitement and listening power of country music and completely revamped his twenty-four hour programming format. With the exception of a couple of hours allowed for religion and ethnic programming, CHOO is now a country convert.

Heading up the programming staff is Paul Scott as program director. Scott was formerly with CKFH in Toronto. He also does the drive show (4-7PM). Brian Barker does

"My Kind Of Country" host Bill Johnston

### MORE POWER - WATTAGE AND SLADEWISE - CHQR

Besides receiving permission to increase their power to 50,000 watts, CHQR Calgary have added to this power increase with a stabilizing force known as Don Slade.

Slade is well known in Winnipeg and throughout the Manitoba province. He has been presented with special citizenship scrolls by Winnipeg Mayor Stephen Juba and also by the Province's Honourable J. McKeag for work on behalf of the city of Winnipeg and the Province. After twelve years in Winnipeg, Slade finally decided to become a Calgarian.

QR is also moving to larger and more modern quarters at 830 9th Ave. S.W. (formerly the Allied Arts Centre). Total investment in the building will exceed \$500,000 with the station's floor space doubling that of their present location. The QR centre will also include Theatre Calgary and the new Stage Door Theatre Restaurant.

the wakeup chores (6-10AM) followed by Brian Perkin (10AM-1PM). Andy Parks looks after the 9PM to midnite show with Neil Sutherland doing it all night from midnite to 6AM.

One of the powerhouses for the weekend is country performer Bill Johnston who hosts "My Kind Of Country" a laid back FM type of show. Johnston has been associated with country music for the past fifteen years and fronts a group known as Second Step.

The power of CHOO was recently felt in Oshawa when the station went on a three day on-air promotion for Oshawa's Home Week — using only Canadian talent. It was obvious by the thousands of country fans who showed up for the big country show that Oshawa and surrounding area were tuned into country — and CHOO.

CHOO Radio is now programming an average of 40% Canadian content but both Scott and Johnston have found a serious shortage of Cancon product over the past few months. There are some record companies, not yet aware of the importance of the station.

CHOO program director Paul Scott

### RADIO PLAY & SALES HEAVY FOR DOWNCHILD

Downchild Blues Band's new Special album, "Dancing" and their single, "Tell Your Mother", have shown early indications of breaking on a national front. Jeff Burns, national promotion for GRT, distributors of the Special label, reports a good initial impact for Downchild with even Montreal's country station, CFOX, giving the single a No. 39 berth.

Burns has an impressive collection of stations giving Downchild playlist action including CHUM-FM/Toronto, CKLG-FM/Vancouver, CJAD/Montreal, CKCK/Regina, CKOM/Saskatoon, CHSJ/Saint John, CKDA/Victoria, CHLO/St. Thomas, CJCA/Edmonton, CHUM/Toronto, CKOC/Hamilton and numbers at CKXL/Calgary (35) and CHED/Edmonton (23).

In an effort to bring the press, radio and dealer force into play, GRT hosted a reception for Downchild at Toronto's El Mocambo

### CKEY AIRS NEW VERSION "WEEKEND TO REMEMBER"

By popular demand, CKEY put together a new version of its famous "Weekend To Remember" programs, which were aired continuously from 7PM Friday, November 1st through Monday, November 4th. The show featured the all-time favourites of the 40s, 50s and 60s, many of which are no longer available, and for the benefit of those wishing to tape-record the show, announcers and operators were asked to take special care not to fade records or talk over them. Fifty-eight hours of non-stop nostalgia commenced when Bud Davies opened the doors of the first of three "Make Believe Ballroom" shows, 7PM Friday, November 1, featuring the bands and vocalists of the big band era. Jim Paulson followed at midnight with an All-Night Houseparty big bash, playing listeners' requests till dawn.

During the daytime, in addition to the memory filled music, "remember when" newscasts that followed regular news reports, and great moments in sports, personalities were provided with magazines from the 40s, mail order catalogues, etc. Special features included guest appearances by two regular hosts of the 60s, Stan Larke recreating his "Early Bird Show" Saturday morning, and Kendrick Crossley providing classical music lovers with a "Sunrise Concert" Sunday morning. Tapes of historic station jingles, program excerpts, and memorable personalities like Mickie Lester, were interspersed with the music. Records were introduced by star performers on recently-recorded interviews, and by Toronto listeners who were contacted to select their favourites.

RPM . . . you'll only miss it when it isn't there!

where they announced that the group's album had surpassed the 10,000 units sold mark.

Dave Paget (GRT promo), Ross Reynolds (GRT), Roger Ashby (CHUM), Don Walsh (Downchild), Bob Ansell (CKOC), Jeff Burns (GRT), Alex Sharpstone (CFTR) and Downchild's manager David Bleakney at El Mocambo reception.

The Programmers TRIBAL DRUM

Paul Kennedy of CKDH/Amherst feels Sweetwater Records could have a big hit in Ray MacAuley's "All Time Sunshine Woman".

Steve Young, formerly with CFRA/Ottawa, has been appointed new Music Director of CKLC/Kingston. Besides handling MD duties, Young is also CKLC's mid-morning announcer.

CRFM/Radio Ryerson's new show, "Radio Live", which features Toronto bands, and, hopefully in the future, some American bands, playing live out of one of their studios, aired the series opener with Audiometer guesting.

CKSL/London's September promo "Endless Summer", consisting of album giveaways of the Beach Boys' "Endless Summer" LPs, in-store displays featuring the album and CKSL, and the awarding of a Datsun Mini-Z, was arranged by Capitol's Jim Macdonald and CKSL Music Director Bruce Devine.

In-store display for CKSL's "Endless Summer" promo.

Patrick David, Program Director at CFGP/Grande Prairie, would like to say "thank you" to Bruce Strigler, IPC, Donald K. Donald, Original Caste, Gary and Dave, Stampeder, April Wine, Lorence Hud, Jay Telfer, Russell Thornberry, and the roadies travelling with them. He feels they keep young disc jockeys in smaller areas happy by showing an interest in doing interviews for on-air promos, and passing on their enthusiasm about the business.

CFRW/Winnipeg's newest feature, "In Traffic With Linda" keeps Peg's motorists posted on road conditions, construction detours, plus other information that will help make their journey to work a little more bearable. Reports, presented informally and humorously, are also given on the transportation services, as well as late arrivals and departures at the airport, and railroad and bus terminals. The feature, handled by CFRW reporter Linda, with an assist from morning man Ron Abel, airs at 7:15, 7:45, 8:15 and 8:45 weekday mornings.

"The History of British Rock" will be featured on CKPT/Peterborough, consisting of 12 one hour segments. The documentary covers the past two decades of British rock, from pre-Beatle to the present time, and incorporates behind-the-scenes happenings with the music of such artists as Lonnie

Donnegan, The Who, Beatles, Rolling Stones, The Animals, Rod Stewart, et al.

RCA's John Desjardins presented CKGM/Montreal with the gold record for George McCrae's "Rock Your Baby". National sales on this hit are 190,000, with 125,000 of that total sold in Quebec alone.

Having reached the \$5,000 limit allowed by broadcast regulations, CJBK/London wound up its successful October "Don't Say Hello" promo. The five \$1,000 winners were Mr. & Mrs. C.F. Bowby (Lambeth), Joanne Cicchini (London), Lynn Beer (St. Thomas), Bev Hart (London), and Edith Halsall (London) who won by answering their phones with "I listen to CJBK-129". The station is already gearing-up to begin an all-new "Don't Say Hello" contest, beginning Friday, November 1st. As well as on-air promotion, CJBK is backing the November contest with 86,900 direct-mail information sheets complete with "Don't Say Hello" stickers that can be placed on residence phones.

**record company approaches?**

**SUMMERS:** I can't foresee any changes. I would like to see companies educate their people so it's of mutual benefit right down the line. I think there should be greater communication between all the accounts. You know, there's no secrets in this business — everything always comes out — everyone always knows what's going on. I'd like to see more people, more dedicated to what they're doing. I'd like to see them spend more time feeling out their markets.

**RPM:** What value do you place on charts?

**SUMMERS:** Well, as a sales tool . . . the only way you're going to sell records is have a number on a chart, which is very frustrating in itself. I've always worked on the basis of . . . you get it played on the radio and let the consumer get exposed to it — you get the record in the store and let the consumer make the decision. If it doesn't sell, you take it back. It's very frustrating to walk into an account and tell the guy that a certain record is on the air and he asks you if it has a number. You say 'No, but it's on the air.' He says, sorry, we only have thirty baskets and if it hasn't got a number we don't buy it.

**RPM:** Can you see this attitude changing?

**SUMMERS:** A bit, but not enough.

**RPM:** Are discotheques selling records for you?

**SUMMERS:** I think they will. I don't find it now. In Quebec it's a different story. We can sell records strictly through disco play. One record that received very little airplay, sold more than eight thousand copies in Montreal, primarily from disco play. It's not happening in Toronto yet, but I think it will. Toronto will follow the trend. It's becoming the fashion in the States and I think discos can become very important to the record business.

**RPM:** You mentioned Quebec . . . do you think the English Canadian market will ever come up in sales to that of the French Canadian market?

**SUMMERS:** The Quebec market is a very exciting market. That's what excitement is all about, and it reminds me of some markets in the States where people get excited about a record and things happen and things move. I would like to see the same thing happen in English Canada, from a retail level.

**RPM:** Why do you think there is so much excitement in Quebec?

**SUMMERS:** It could be the emotionalism of the market itself. The general feeling of getting excited, being excited . . . a genuine excitement. There's a difference between a false excitement that doesn't mean anything, and a real excitement. I think they really feel the excitement of the business.

**RPM:** They obviously have a star system. Do you think English Canada will develop their own star system?

**SUMMERS:** I think we will have one. I think a lot of people are trying to do the right thing. There are a lot of dedicated people who are genuinely trying to do something for this business, and I think we will get there eventually.

**RPM:** You mentioned the RPM interview with Gord Edwards. He felt that record companies were out of touch. How do you feel about that charge?

**SUMMERS:** I think some record companies are out of touch. There are other companies though, who are really on top of what's going

on and there are those who are trying to be more in touch. If we're going to be in the record business and be successful and continue to grow we have to become more involved.

**RPM:** Is business good?

**SUMMERS:** Business is excellent.

**RPM:** Has the vinyl shortage caused any real problems for A&M?

**SUMMERS:** Our problem hasn't been vinyl as much as it has been production schedules. It seems there aren't enough presses to produce all the records we need.

**RPM:** How's the tape business and what percentage is it of the business?

**SUMMERS:** Tape business is excellent. It runs anywhere from 25 to 30% of the business. Cassettes are still behind 8-track of course, but it still looks like it could break open. The increase in tapes has been good and if the Quebec market ever catches up with the rest of Canada on tapes, it will probably equal Ontario in total dollar value.

**RPM:** Is A&M into long boxes?

**SUMMERS:** No, but I think that's the avenue of merchandising tapes. I've looked into our own long box with the option of putting it out and giving it to other people. Paying that much money for tapes, people want to touch the product. I wonder, and I'm open for facts and figures, I've always gone under the premise that if you're going to lose 2% in pilferage, if you do more business you're still going to lose 2%. It doesn't go up to 80%. It's more dollars but it still comes out to 2%, and I welcome the racks and the accounts saying let's put it out and let's try to sell some product, rather than hiding it in a locked cabinet.

**RPM:** Does the future look good for Canada in the record business?

**SUMMERS:** I'm very optimistic on the future of Canada as a whole and the record business in general. I think there's no limit as to what we can do up here.

Perignon champagne. He is comfortably attired in blue denim highheeled shoes, yellow lurex sox, jean overalls, a T-shirt and gold pendant, topped off by an Oriental-influenced vest adorned with black feathers. The omnipresent glasses have yellow lens in blue frames.

I remark that Elton does not have the typical squashed-out appearance of many of his rock contemporaries. "I'm different. I don't stay up all night," he laughs. "I get up early and play tennis".

The chat soon gets around to Elton's new single, "Lucy In The Sky With Diamonds". "I haven't heard the mix yet but I'm looking forward to it. We had a lot of fun making it".

The next Elton John album will be a "Greatest Hits" package planned for November release, "to catch the Christmas market". MCA, his U.S. distributors, are contemplating the re-issue of Elton's first album, "Empty Skies", which is relatively unknown in this part of the world. "But not yet," insists Elton. "I'll have so much product on the market that people will be sick of me".

Although over-exposure would hardly seem to be a threat to his career (the public has demonstrated an insatiable appetite for his music), MCA is holding off on the release of the next studio album, "Captain Fantastic and The Brown Dirt Cowboy". The tracks were put down at Caribou Studios in Colorado: the thrust of the LP, in Elton's words, is "the story of our rise to success, from the beginning until now".

Elton appears to be delighted with John Lennon's return to the charts. "It's great, isn't it," he says. "The single looks like being his biggest in a long time. I'm very pleased about it".

Elton is hustled off to his private dressing room to prepare for the show. Outside, the audience is gripped with anticipation. Fifteen minutes later, a grinning Elton emerges, bopping around in a black vinyl jumpsuit and matching skull cap equipped with scores of metal spikes holding luminous coloured balls. Welcome the Rock Spaceman. The message is flashed to the stage, the lights dim, the roar begins. It has fanatical intensity. Elton John is on.

The white spots zoom into the red stage, the roar is renewed, Elton sits down at his Steinway Grand draped in a black velvet cover with sequin embroidery and slams that left hand into the keyboard. The sound system is superb.....built to overcome the precarious acoustics of such concrete caverns. It was the finest stadium sound I've ever heard.

Dee Murray, Dave Johnstone, Nigel Olsson and Ray Cooper continue to be one of the most underrated bands in rock - their individual recognition has been slow in reaching a fitting level. They are absolutely first class, the ideal complement to Elton's songs. The extended instrumental workouts on tunes like "Burn Down The Mission" were brilliantly tasteful. The show is Entertainment with a capital E.

Elton John is in fact, one of the few real entertainers this music has produced since its early days. He is a showman, singer and musician par excellence. Of a class unique in rock 'n' roll. His concert was a dynamic exercise in poise, precision, and perfection attained. One veteran deejay commented that it was the best concert he'd ever seen.

The problem remains that it's difficult to find fresh words sufficiently free of the pollution of hyperbole but still meaningful enough to emphasize Elton's uniqueness.

Then it was into the limos and a motorcycle escort downtown and right into the wrong door.
